Unmatched value.

The 2025 NXT delivers unmatched value with exciting new features added to our already industry-leading specs. Enjoy the stunning new colours, including the Ferrari-inspired Rosso Corsa red, 14" wheels, and a touchscreen infotainment system with wireless CarPlay & Android Auto, all standard. Paired with our powerful 72v battery system, 450a motor controller, and 4-disc hydraulic brakes, the 2025 NXT offers luxury, performance, and reliability like no other. With redesigned sport seating and a locking glove box added to its impressive lineup, it's the best NXT yet—designed to elevate every ride.

Why choose SC?

06.

8.1kw lithium battery pack

Spend less time charging and more time cruising with a class leading capacity.

72 volt

450 amp controller and 7.5kw AC motor makes this the most efficient and powerful vehicle in the industry.

4 disc hydraulic brakes

4 disc brakes are standard on all of our vehicles, ensuring our customers are always in control.

EM brake

With the automatic park brake, there is no concern of run away carts.

SOFTEC suspension

Our superbike inspired suspension takes the bumps out of your journey.

Custom colours available

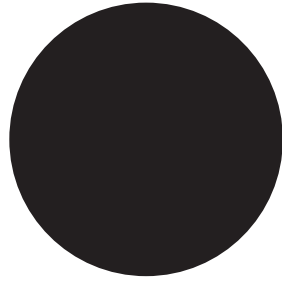

We can custom paint your vehicles any color you choose.
